NI-Track: Universal Tracking Solution

It's never been so easy to track your personnel, vehicle or assets, where ever they are!

Any Asset, Any Hardware, One Interface

- Speed: Load tested to handle over 36,000 positions from over 400 tracking units in just 35 seconds

- Versatility: Capable of tracking any unit in the world on any network through a single interface

- Usability: Multilingual support across multiple platforms without any software installation

- Customizable: Easily customized that includes White Label and Reseller Options

- Easy to Use: Utilizes a simple, browser safe interface that never needs to be upgraded or patched

NI-Track is a web based integrated satellite and GSM tracking solution, compatible with modern web browsers and works on a multilingual platform that brings together all the positions of every manufactured product under one location and displays and manages them in a single unified interface. With NI-Track, asset locations and movements - including position, speed, altitude and heading - are tracked in real-time worldwide via GPS updates.
